RE: Business Entity Affiliations

Effective October 1, 2010, the NC Department of Insurance will no longer require insurance business entities to report affiliated producers including additions and deletions. The administrative rule, 11 NCAC 06A .0413, requiring producer affiliations has been repealed.

The entity should maintain a current list of affiliated agents such to provide it to the Department upon request. Please contact the Agent Services Division at (919) 807-6800 if you have any questions.
