RE: New Testing Option for Active Military and Their Families

The North Carolina Department of Insurance is pleased to announce that it has authorized its test delivery vendor, Pearson VUE, to begin administering North Carolina Insurance exams at various military sites domestically as well as around the globe. Active military personnel and their families can both take advantage of this service.

The complete list of those military sites, as well as instructions on how to become an approved Pearson VUE military test center, can be viewed here: <http://vue.com/military/>. These military sites possess a digital signature pad, camera, and all other test delivery hardware and software required to deliver North Carolina Insurance exams in a typical Pearson VUE third party test center.

Not all overseas military test centers are able to assist candidates with their reservations, so overseas candidates should first attempt to schedule their exams online. They can also call the domestic reservation number at **888-204-6230** to schedule their exams through the military channel if the military site closest to them is unable to schedule their exam on their behalf.

The military bases capable of administering North Carolina Insurance exams can be accessed from the Department of Insurance page found here: <http://www.pearsonvue.com/nc/insurance/>
