

Your car heats up faster than you think.

Help prevent heatstroke injuries by remembering to ACT.

A: **Avoid heatstroke-related injury** and death by never leaving your child alone in a car, not even for a minute.

C: **Create reminders** by putting something in the back of your car next to your child such as a briefcase, a purse or a cell phone that is needed at your final destination, especially if you're not following your normal routine.

T: **Take action.** If you see a child alone in a car, call 911.
