

operation medicine drop

Medications are the leading cause of accidental poisoning deaths among children.

Operation Medicine Drop has disposed of more than 105 Million prescription and over-the-counter pills since 2010, saving countless lives as well as the environment.

You can help your family and community by keeping unused or expired medications out of the wrong hands.

Bring unused or expired medicines to a Take-Back Event near you. Visit www.safekidsnc.org to learn more.
